

A glowing blue cylinder is centered in the frame. The top surface of the cylinder is a dark blue oval, and the text "BRIGHTER API" is written in white, bold, sans-serif capital letters across it. The cylinder itself is a vibrant blue, with a bright blue ring of light at its top edge. The background is a dark blue gradient.

Develop Interaction Model

- **Interaction Model**
 - **Intent Schema**
 - These are intents for common actions that you can choose to implement in your custom skill without providing any sample utterances.
 - An *intent* represents an action that fulfills a user's spoken request. Intents can optionally have arguments called *slots*. Intents are specified in a JSON structure called the *intent schema*.
 - **Custom Slot Types**
 - A representative list of possible values for a slot. Custom slot types are used for lists of items that are not covered by one of Amazon's built-in slot types.
 - **Sample Utterances**
 - The phrase a user might speak to signal that intent.

A glowing blue ring, resembling a fiber optic cable or a futuristic light fixture, is centered in the upper half of the image. It emits a bright blue light that creates a soft glow around it. Below the ring, the words "Thank you" are written in a large, white, sans-serif font. The text is slightly blurred and has a subtle reflection effect on the surface it appears to be resting on.

Thank you
